

up in Mr Matthews parish. I was
very glad to get your letter. I begin
to acknowledge the existence of
M.B. now that you are there. Do
write the instant you pick up
any thing about the academy
Give my love to Jo & Daniel &
the Emersons. I forgot to say that
in to-nights paper, we saw per
over-land mail that the Paul Jones
sailed from Whampoa the 27 of
Feb. Gray expects her about
the 20th of June. I am hard
at work clearing out pigeons &
such. The barn was new shingled
to-day as the rain poured in
so that no hay could go in. Ounce
tell Henry has broke his leg, which
Aunt Cythia has set with splinters
& he is thought to be in a good
way. The Sam Reed fence is to
be begun forthwith. I think I have
raked up every possible thing.

ever yours D.W.
